

PETEY PEERO unBEETable Adventure

STORY

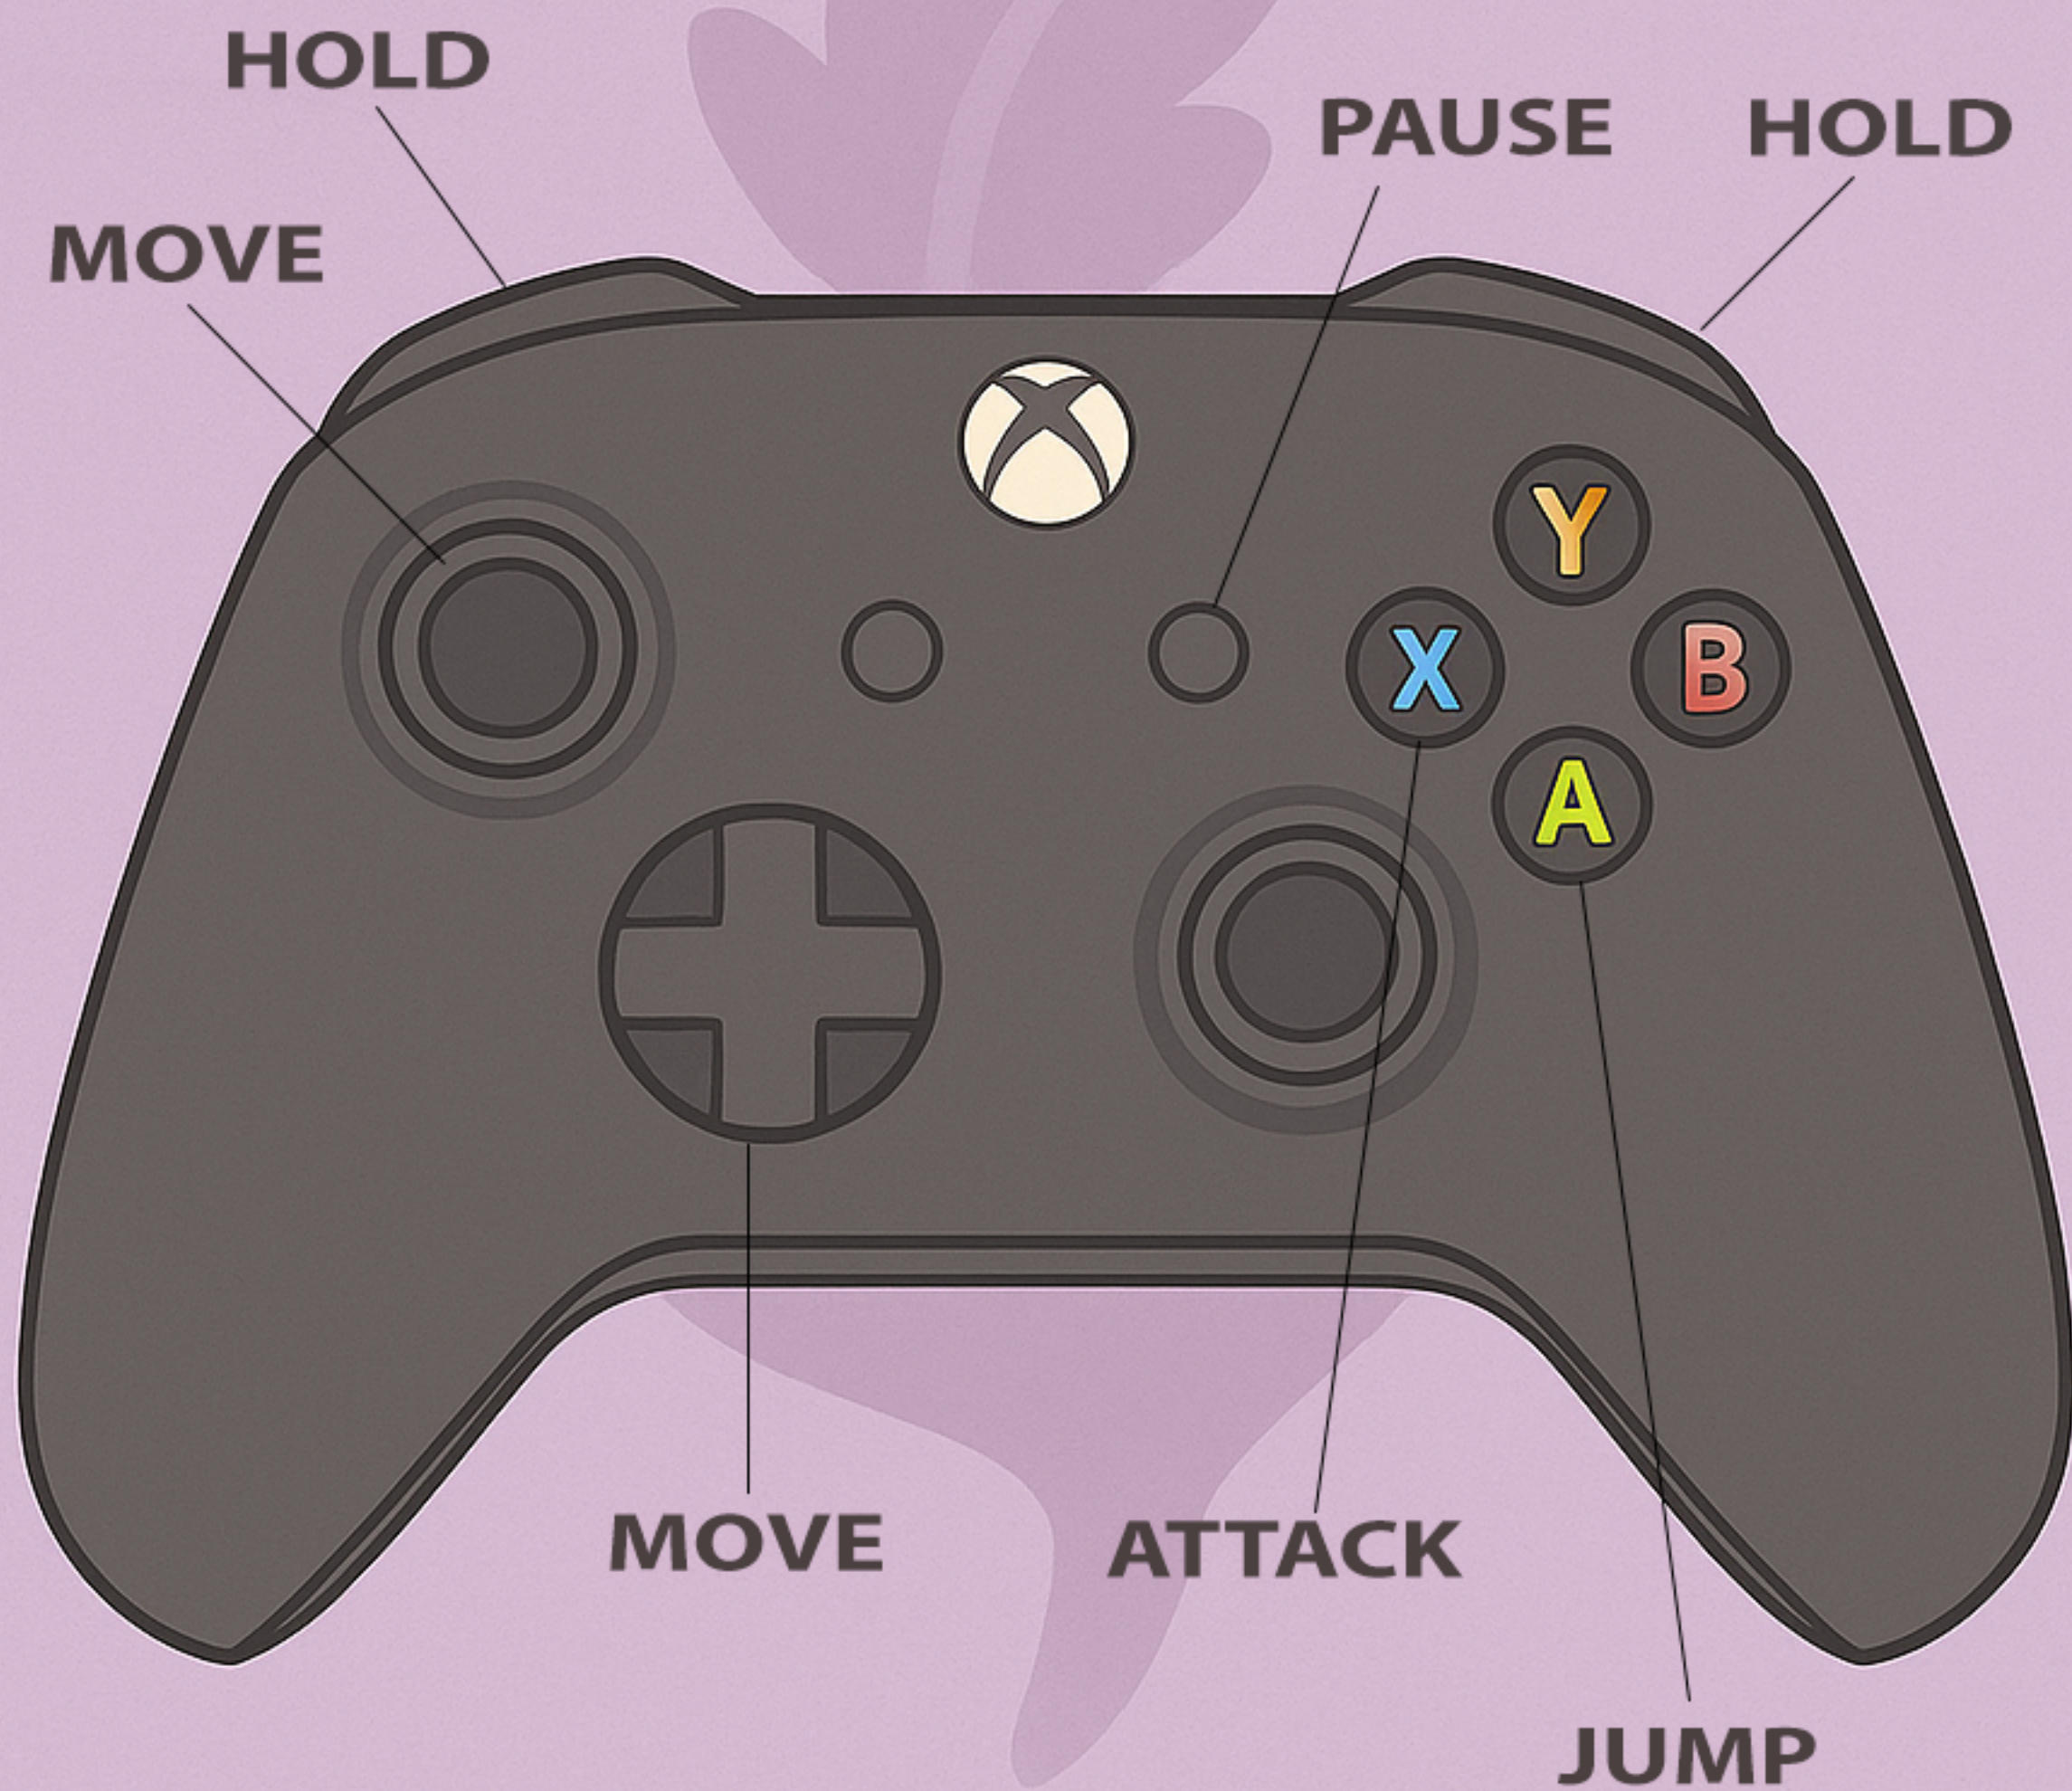

Help **Petey Pedro** get back home after falling into a magical world where the **SWEETS** he chose over a healthy **BEET** has turned into his worst nightmare. What begins as a **sugar-fueled dream** quickly warps into a challenge of survival, full of **candy-coated chaos** and unsettling familiarity.

This isn't just a battle *against sugar*—it's a story about a son who **didn't listen to his mother**. In this strange world, everything seems to echo her warnings; bangle-wearing enemies, menacing hands tipped with bright red nail polish... all reminding Petey Pedro of the one voice he ignored.
